

## Mathletics and Reading Eggs

### Year 3 - 6 Students

Mathletics and Reading Eggs are interactive websites with learning activities, games and challenges. Windy Ridge has been using these online learning programs for several years now and we know that the children enjoy using it. These resources are based on the NZ curriculum, and are set up at the user's learning level, ensuring that activities are levelled to both support and challenge. As they provide students with 24 hour access, they also become part of their home-learning, and worthwhile activities if home sick or away from school. Students will also be able to access these programmes during school time. If you would like more information you can visit their websites [www.mathletics.co.nz](http://www.mathletics.co.nz) and [www.readingeggs.co.nz](http://www.readingeggs.co.nz)

The cost for a one year sign-up to both resources is \$46. We consider this great value for money, as a non-school registration is \$90 per annum for each programme.

Your child will get their own username and password, providing them with unlimited opportunities to engage in learning in each of the programmes.

Please complete the form below and return with your payment. Alternatively if you wish to pay by Kindo, indicate below.

Regards  
Brenda McPherson
